SOLID COLORS

Product Class

Unicolors raw decorative papers (for low and high pressure).

Description

We do represent one of the leading Companies in the development and production of solid colors décor papers for high pressure, both for interior and exterior applications, and for low pressure. Our production program spans over the full color scale, from white to black, from lighter colors to the most vivid ones. We do feature a state-of-the-art research and development as well as technical department, daily working to develop new colors and recipes according to our customers' need.

Advantages

- A very high production flexibility enabling us to produce a minimum lot as small as 1.000 kgs. per color
- The possibility of producing decorative papers in width ranging from 122 cm. (4 feet) up to 274 cm. (9 feet)

We are FSC, ISO 9001, ISO 14001 and OHSAS 18001 certified Company as a part of our commitment to quality management and preservation of the ecosystem and environment.
